REMARKS

Reconsideration of the subject application as amended herein is respectfully requested.

The Applicants would like to thank the Examiner for the courtesy of granting an interview. The Examiner has indicated that the claims will be favorably considered if they are amended to incorporate decompressing a portion of the content and using a characteristic of the content as a means of determining whether the content should be played or not. This feature of the invention is clearly absent from the prior art of record.

Accordingly, the claims have been reviewed and amended to concentrate on this feature, as it is described in par. 39 of the specification. It is respectfully submitted that the subject application is now in condition for allowance.

Respectfully submitted,
